

## Sadie Creek

Scale: 1 Inch = 0.83 Miles

0 .5 1 1.5 2 Miles

## Sadie Creek

Located 8 miles West of Joyce, this 30-mile combination trail and road system offers both lowland and rugged mountain trail bike riding when snow free. The trail starts at the trail head along Sadie Creek at an elevation of 600 feet, and climbs until reaching a ridge top at 2,500 feet. The trail follows the ridge for a few miles, then drops back to the trail head.

On a clear day, trail users can see the Strait of Juan de Fuca, Vancouver Island, the San Juan Islands and Mount Baker.

## Murdock Beach

There is 30,000 feet of public beach at the Murdock Beach Access. The beach at low tide is a wide expanse of gravel, hard clay and rock with a wide variety of intertidal life.

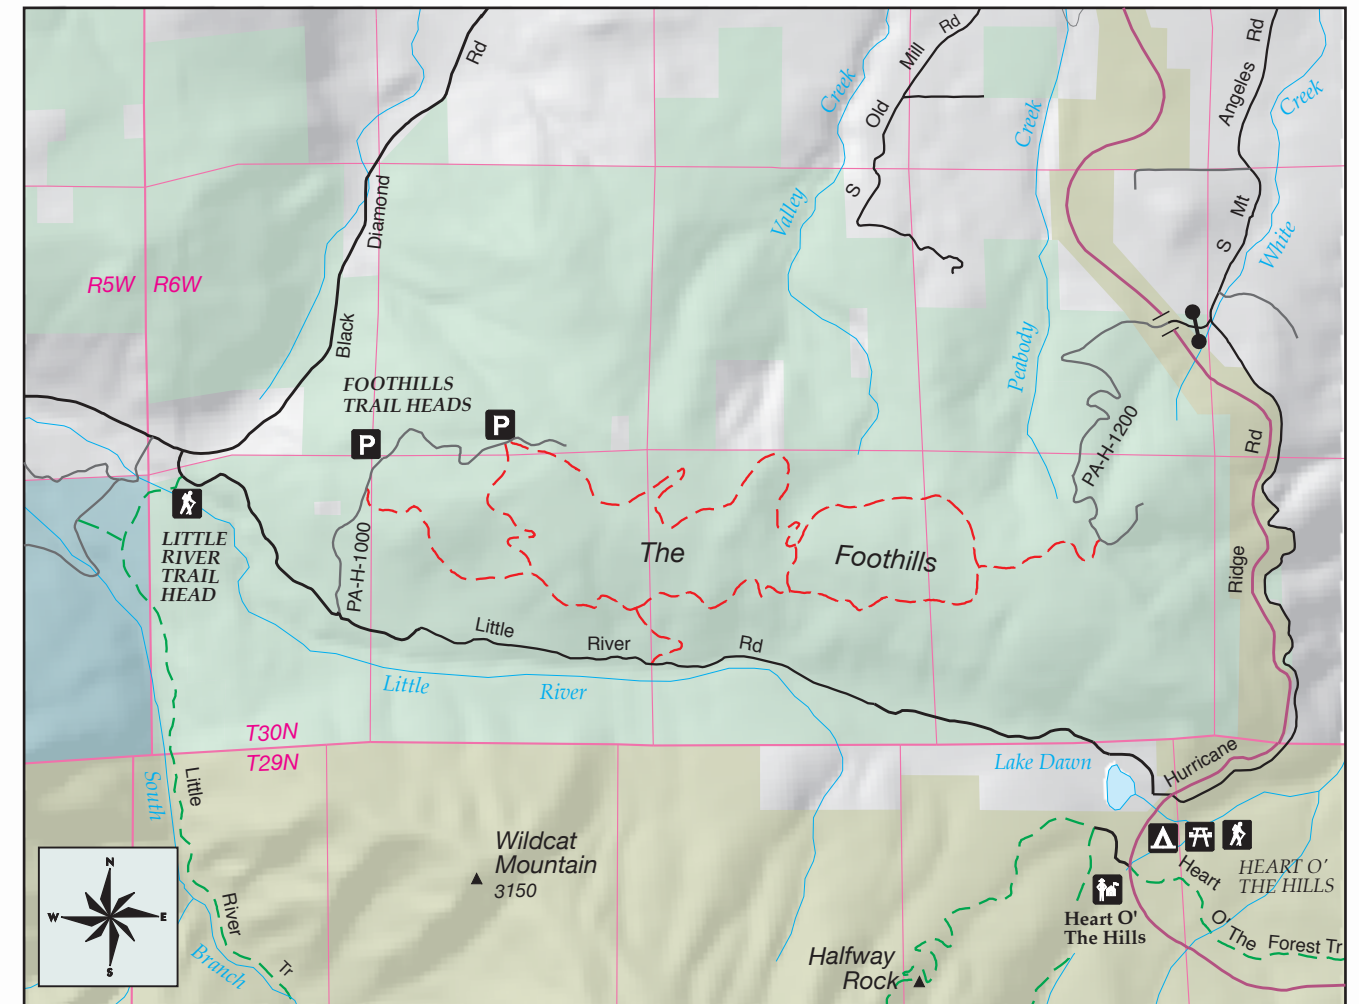

The public beach extends to the east for 6,000 feet, but the uplands (basically starting at the driftwood line) are privately owned. At high tide there may not be any exposed public beach east of the access point.

## Lyre River

This site has nine campsites, picnic facilities, drinking water, restrooms and a salmon and steelhead fishing area. One campsite and all facilities are barrier free and on a barrier free route of travel from an accessible parking lot.

## Foothills

Scale: 1 Inch = 0.66 Miles

0 .5 1 1.5 2 Miles

## Foothills

This 6.5 mile trail system provides good riding for novice trailbikers and family groups. Two shortcut trails divide the main loop into three smaller loops. This trail is also popular with local horse riders, so ride aware.

The alternate routes, plus close proximity to Port Angeles, make the Foothills trail an ideal summer evening ride for those living in the North Peninsula area. The trail is open all year, weather permitting.

## Little River

This hiking trail follows Little River to its source in Olympic National Park. The trail then proceeds up to the ridge top, where it intersects the Hurricane Hill trail leading to Hurricane Ridge Visitors Center. Distance to the Center is approximately 7 miles with a 4400-foot gain in elevation.
